***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 16, 2007 has been entered.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the examiner has considered applicants' amendment and arguments filed February 16, 2007 along with a Request for Continued Examination. In light of said arguments, and upon further consideration of the prior art relied upon for the rejections of record, the examiner concedes that neither the primary reference nor the combination of reference teachings relied upon by the examiner teaches or suggests controlling the rhodium concentration of a re-circulated rhodium-containing solution to the specific concentration recited in the instant claims, nor how such a modification would affect the conversion of the olefinic starting material and/or yield of aldehyde and/or alcohol, as is the thrust of the instant invention. Accordingly, the instant claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
